MAKE NO MISTAKE

MUST REPORT ON IN[illegible]E TAX WHETHER TAXED

MUST FILE A RE[illegible]

Employers Are Required to Report All Employees and the sums They Are Paid Annually.

The Bureau of Internal Revenue is seeking to impress upon the public the necessity for compliance with that section of the Income Tax Law requiring a return of income whether or not the income is taxable. The single man with an exact income of $1,000, or the married man with an exact income of $2,000, who decides that, because his income is not taxable, he need not bother about filing a return, is making a mistake.

A checking system will inform the Bureau of Internal Revenue of delinquents. Under the "information at source" provision of the act, every individual, corporation or partnership which paid in 1918 to another individual, corporation or partnership $1,000 or more, must make a return of such payment to the Commissioner of Internal Revenue. These returns are required of employers, lessees and mortgagers of real estate, and fiduciaries, and must include rents, salaries, premiums, and annuities. Employers are required to make a separate return of each payment of $1,000 or more to employees, and wherever possible, must state whether the recipient is single, married or the head of a family.

Forms for filing income tax returns may be obtained at the offices of collectors of internal revenue. Announcement of their date of distribution will be made by collectors. Taxpayers, whose net income for 1918 was less than $5,000, should ask for Form 1040 A. Those whose income was more than $5,000 should ask for Form 1040.

The man who this year is required to pay an income tax is urged by the Bureau of Internal Revenue to file his return without delay as a means not only of avoiding possible future embarassment to himself, but as an aid to the government in the collection of its war revenue.

"It must be remembered," said Commissioner of Internal Revenue Daniel C. Roper," that the revenue to be derived under the current act is to be used to defray the cost of a war that has brought victory to the United States and its allies. The estimated total is $6,000,000,000. Compare this with the indemnity that would have been demanded by Germany had victory been on the other side. The man who pays an income tax this year may do so with thankful heart, secure in the knowledge that he is bearing his just share of a common burden, which no loyal American would evade."

The "blesses" are the wounded French.

NORMAL-TARKIO GAME THURS

Bearcats in Shape for Hard Game—M. H. S. Teams Play Double Header With Hopkins Friday Night.

The Normal Bearcats will mix with Tarkio five on the local court [illegible] night, it being their second [illegible] season. Coach Sims' men a[illegible] shape for a hard game and despite the fact that the Tarks are coming with "blood in their eye" intent on evening up the season's score, hope to connect with the long end of the score.

The two Maryville high school teams—boys and girls—will play a double header with the two teams from Hopkins Friday night on the Normal court. The double event is being looked forward to by the M. H. S. players, for Hopkins has proven a tough proposition, both teams having been defeated on the Hopkins court.

INCOME TAX FORMS ARRIVE

Individuals with Incomes of $5,000 or less released today—Other Forms Available Soon.

Individuals of Maryville with income of $5,000 or less received today their income return tax form from the revenue office at Kansas City. The forms were released this week without awaiting the signature of the revenue bill by President Wilson. The form for individual incomes of more than $5,000, and other tax returns forms will be available in two weeks.

The individual form for incomes of $5,000 or less is a printed sheet divided into three parts, one constituting a "work sheet" on which a taxpayer may figure his income according to the guide provided, another containing detailed instructions, and the third being the actual return form. Married persons or heads of families who made $2,000 or more, and single persons who made $1,000 or more in 1918, must make out returns before March 15.

Accompanying the individual return form is a schedule for use of farmers in calculating net income for 1918. This will assist a farmer in determining value of crops, livestock products, and other materials, sold and on hand.

MRS. AUFFART ASKS DIVORCE

Besides Indignities Charged, Claims Husband Has Forced Her to Move Seventeen Times.

Charging indignities and that she had been forced to move seventeen times during their married life of less than ten years, Mrs. Priscilla Auffart filed papers today in a suit for divorce from her husband, Joseph H. Auffart. Mrs. Auffart in her petition charges her husband with failure to provide the necessities of life, with habitually associating with other women and that he stays away from home weeks at a time refusing to tell where he has been or for what purpose. Mrs. Auffart asks the custody of their three minor children Otis, Edwin and Marion. The Auffarts were married in November, 1909.

DRIVE GOING GOOD

MARYVILLE WILL RAISE HER QUOTA FOR ARMENIA RELIEF

WAR HERO TOSPEAK HERE

Sergeant Kearney, Australian Officer Who Served in Turkish Campaign Will Aid in Drive.

While complete reports are not yet available and with some districts yet to report, the drive for funds for the Armenian and Syrian relief fund is progressing favorably according to County Chairman C. E. Wells. Mr. Wells said today that Maryville would have its quota before the end of the week. Solicitors, he said, were still at work and were finishing a canvass of the districts that had not been visited earlier. No definite report has been received from any of the towns in the county except that they were at work and expected to have their quotas raised by the end of the week.

To aid in the campaign in the outside districts Sergeant Kearney, an Australian officer who has been wounded during three years service will arrive tomorrow and will speak in several of the adjoining towns at meetings that will be arranged. Sergeant Kearney was in the battles in the drive towards Constantinople, having participated in the Turkish campaign and he will have another story of the war to tell. He will come from the headquarters of the state committee. Sergeant Kearney lost an eye in one of the battles and was severely wounded in other engagements.

An effort will be made by Chairman Wells to arrange for Sergeant Kearney to speak in Maryville Saturday afternoon, giving some of his experiences in the Turkish campaign. Further announcement of the meeting will be made tomorrow or Friday.

TALK TO THE STARS

MARCONI BELIEVES OLD, OLD DREAM WILL COME TRUE

WILL BE MATHEMATICS

Inventor Says He Has Often Pondered Over Strange Signals That Appear to Come From Without Space.

London.—(By Mail).—The old, old dream of the wig-wagging with Mars may yet come true.

Signor Marconi thinks electrical scientists of the future will be able to communicate, by means of wireless, with the planets—mathematics being the language for inter-planetary conversation. Ether waves, the conductors of the wireless ray, are universal, he believes.

"I have often pondered over the strange signals that seem to come from the realms of space beyond this world," Signor Marconi stated in an interview. "Possibly the people of Mars have had, or are having, the same troubles as ourselves—perhaps they, too, have their Kaiser, their Huns, and their Bolsheviks to endure, and now from a distance of millions of miles are trying to give us their latest communique, which we shall not receive for many generations, if at all.

"A leading scientific official being interrogated on the subject said: "We are progressing rapidly in wireless telegraphy, but how soon we shall be able to talk to the stars remains to the savants of the future.

"The distance of some planets is so great that it takes light, which travels at the rate of 186,000 miles a second, more than 50,000 years to travel from them to the earth—the nearest star is more than nineteen million miles away.

"It is interesting to note," he said, "that a scientist in America, experimenting in long-distance wireless, sent off a message and received it back one-seventh of a second later, it having travelled right round the earth—a distance of 25,000 miles."

This would apparently mean that supposing a message were sent off today—not a long one like "How's your father?" but a simple one like Signor Marconi suggests: "Two plus two equals four"—the scientists of A. D. 52,000 will be kept busy waiting for a reply. And after all that, the people of Venus or Jupiter might reply rudely "Well, what of it?" or they might Marconi back if their mathematics don't quite coincide with ours: "No, we make it five."

The official continued: "The spark of the wireless apparatus diminishes slightly the farther it goes, and is consequently a little more difficult to detect, but, however, there may be some hope of communicating with the planets, for the detectors in use at present are a thousand times stronger than they were four years ago. And, besides," he continued, "the strength of the wireless spark is practically illimitable."

"Mars is a small planet—little more than half the size of the earth—but the atmosphere surrounding it is, as far as we can ascertain, very similar to our own, so it appears that Mars will be probably more responsive to our messages than any other."

The scientific experimentalists and officials of the Marconi company are religiously firm in support of Signor Marconi's engaging thesis, though Marconi himself complains that messages he sent ten years ago have not yet reached some of the nearest stars.

THE BIG QUESTION

HOW STRONG WILL GERMANY BE AFTER PEACE IS DECLARED?

TO BE THROUGH BY JUNE?

Peace Delegates Believe Delegates From Enemy Nations Can Be Summoned to Congress by April or May.

Paris, Feb. 19.—Opinion is crystalizing among the peace envoys that it might be possible to summon German, Austro-Hungarian, Bulgarian and Turkish delegates into a full congress by the middle of April or the first of May and that peace can finally be concluded by the middle of June. When President Wilson returns to Paris the middle of March he will find the labor of the conferenece considerably advanced and a cut aand dried program ready upon which he will be able to work. The biggest question engaging attention at this moment is the military and naval strentgth that will be left to Germany after peace is declared.

CLEMENCEAU SHOT

NOTED FRENCH STATESMAN IS WOUNDED BY AN ASSASSIN

ASSAILANT IS A RUSSIAN

Police Reported Shortly After Attack That an Arrest Had Been Made—Premier Will Recover.

Paris, Feb. 19.—An attempt was made today upon the life of Premier Georges Clemenceau, world famous statesman and one of the dominating figures in the peace conference. Five revolver shots were fired as the Premier was leaving his official residence shortly before nine o'clock, Mr. Clemenceau being wounded. It is stated that he will recover. The police announced shortly after the attack that an assassin had been arrested. The first reports to the police was that the Premier's assailant was a Russian. One shot struck him in the shoulder, another penetrating the hood of his automobile. Several persons ran to the assistance of the aged statesman, but he was able to walk into his residence.

Spectators declared that five shots were fired by the assassin, but an official statement issued this afternoon said there had been seven in all. Some of the bullets passed through the clothing of the two men upon the driver's seat, but they were not wounded. The official statement said that Premier Clemencau was not seriously wounded.

Washington, Feb. 19.—One of the two men who today attempted to assassinate Premier Georges Clemenceau was seized by a mob and almost killed before he was rescued by grendarmes, according to a dispatch to the state department from the American embassy at Paris.

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

Our rate of taxation for the past year was 95 cents on the $100 valuation, forty cents on state part, forty cents for all purposes in the county and fifteen cents for exisiting indebtedness As the indebtedness is now liquidated, our rate of taxation the ensuing year can not exceed eighty cents on the one hundred dollars valuation, forty cents for state and forty cents for county. We have no floating indebtedness.

Probably the largest audience that ever assembled in Union Hall was there last Monday evening to her the Hon. Lafe Dawson deliver an address on the subject of Temperance. The large hall was literally packed with an audience composed of yound and old, many of whom had to remain standing while hundreds were turned away, unable to gain admittance at the door. After the address the audience was favored with a song by the occomplished Miss Anna Cushwa. Mr. R. W. Hammond, one of our talented and eloquent attorneys, who is an authority on Temperance matters, addressed them.

Union Hall was crowded last Friday evening with an appreciative audience to witness the exercises of the literary entertainment of the teachers and pupils of the Maryville public school. Our columns are too crowded this week to admit of an extended notice. The larger persons who took part will, therefore, excuses us if we make more particular mention of the little boys and girls who did so well—all of them. There were Dolly Michau, Dale Flowers, May Boyer, George Lieber, Charlie Davis, Villie Northcutt, Eva Charles, Lena Briggs, Della Lutes, Edith Curfman and Lucy Ford who performed to perfection. Alice Ford's declamation, Hezekiah Bedott, brought down the house. Without Miss Broyles the entertainments would fall far short of what they are; she could give a good entertainment herself. Everyone praised her rendering of "The Beautiful Form of My Dream," and, "The Angels of Buena Vista." Prof. Charles essay on "The Influence of Language," was admirably wrritten, but read in too low a tone. The expression of many was, "I wish it had been louder so that I could have heard it distinctly." The tableau, "Washington's Vision," and "Playing Hookey," were well performed, and Chapin's band furnished elegant music of course. There were many regrets expressed that Mr. Anthony was not present to read an essay on "Books and Reading" as all know Mr. Anthony to be a thorough scholar and a gentleman who always talks and writes the best of sense.

The following is the report of Miss Amanda Harbison, teacher of the Long Branch school for the month ending ending January, 1879. FARMING IN U.S. VS. ENGLAND

American Farmer Is a Plutocrat When Compared to English Cousin Who Occupy Unsanitary Homes.

London, Jan. 24.—(By Mail).—Compared with his English cousin, the American farmer, is a plutocrat. Aside from the fact the American farmer has a wider diversity of crops, better soil, larger fields more machinery to save human sweat and other numerout advantages, the American farmer, basically, socially and also agriculturally, is generations ahead of his English cousin.

Fundamentally, there's a difference. Farm labor, or any other labor that gets its hands dirty, is not respected; that is, there is no, bond of sympathy between that kind of labor and the two upper classes. The farmer himself, presuming he owns the land, is in a far different position. He may be "an English gentleman," and member of Class No. 1, or a titled person. Actual farm labor, however, is regarded by classes one and two in this country as degrading. There is no respect for farm labor, as such, any more than there is for the work of a draft horse. Serfdom has passed, but the serf-idea has not been entirely eradicated.

There are farm laborers in plenty, just as there are underpaid mill operatives in the Lancashire cotton industry. But there is no such thing as a farm laborer who lives with the family as in America, and is on the same social footing in this country. Neither does he have, as in America, if married and with family of his own, a cottage, a plot of ground, a few chickens and perhaps some stock of his own.

But more often, the farm workers live in villages which are picturesque, often enough, but unsanitary. With all such houses made of brick, naturally there is not much tearing down or improving done. In some sections, thatched cottages, with the ancient fireplaces, still may be found.

Rural housing conditions have moved R. B. Walker, secretary of the National Agricultural Laborers' and Rural Workers' Union, to demand improvements. To visualize the condition, an American must think of a rural English cottage as occupying as much ground and possessing fewer conveniences than the house of a day-laborer in the mill district of Pittsburgh. There are exceptions, of course, where the laborer may own a few acres himself.

"You can find appalling object lessons in bad housing in picturesque villages in Herts, Essex, Dorset, Oxfordshire, Northamptonshire and Wales," Walker said. "In fact, you can find them everywhere. The ivy-covered laborers' cottage artists and landowners like to see may be the most unwholesome spot in the neighborhood for its real purpose—the housing of a hard-working man and his wife and children.

"It is well nigh impossible for parents and families to live descent, comfortable lives, such as they want to live, in a four-room cottage, with two rooms upstairs and two downstairs, for a husband and wife and seven children. Yet that is the typical country laborer's cottage such as I know by the hundred and many a family of six or eight children has been compelled to live as best it can in such cramped surroundings.

"The sanitary arrangements at some of the cottages are appalling; in fact, one wonders how htey could have been tolerated even 100 years ago. A cottage may have only a ladder with a rope to guide you to the upper rooms; you may have to pass through one bedroom to get to another; the doors may be so small only children can pass through without stooping."

Healthy Mothers
Healthy Babies
Every true mother realizes the fact that her baby's health depends upon her own, that the very vitality of her child is influenced by her own physical condition. How important it is, therefore, to guard against any derangement of the female organs, which induce general weakness, nervousness, constant fatigue and utter inability to properly care for her child. Please remember, that Lydia E. Pinkham's Vegetable Compound has brought health and strength to thousands of such mothers.
Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia. I had gained in strength and was able to go around and do all my housework. My baby when 7 months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. Pearl Monyhan, Mitchell, Ind.
Good health during and after maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

A Man.

What shall we say of them, the dead who died
Upon the fields of France to crush the foe?
How shall we show our pity and our pride?
How shall we crown their glory and their woe?
Not by the means of futile words of praise—
The nameless dead do never ask this gift—
Not by the splendid monuments we raise,
Nor by the half mast flags we sadly lift;
But let this be their glory, be their due,
Let but their single thought speak for them here:
In that rich moment when they gave, each knew
E'en as he lost the things he'd held most dear,
That, matter not what be Life's unseen plan,
He'd played his part, and proved himself a man.

—Robert A. Donaldson in the Stars and Stripes, France.

"DOUG" FAIRBANKS AT EMPIRE

Appears Tomorrow Night in "Mr. Fix-It," the Best Comedy of All.

Douglas Fairbanks with three leading women will appear at the Empire tomorrow night in a photo-comedy, "Mr. Fix-it" which leads the procession of plays of the popular Fairbanks.

The story is Mr. Fixit is a smiling young man, bubbling over with good humor and geniality, whose pet theory is that happiness is a mighty good habit which everybody can acquire if they desire it. He promulgates his theory in a home of wealth, whose inmates are at sixes and sevens over everything in life, and he "fixes" things in a novel and surprising manner, although that process almost gets him into serious trouble. The story has numerous thrills and is filled with several amazing surpirses of the typical Fairbanks order. These include a thrilling battle with gunmen in the slums, an escape by clothsline and in one scene Mr. Fairbanks swings across the street at a dizzy height on an election banner.

O. P. Fisher Buys Farm.

The A. Thompson farm of 230 acres nine miles northwest of Maryville, was sold today to O. P. Fisher. The sale price was $23,000. Mr. Fisher has recently sold his farm east of the city and will move to his new home March 1. The deal was made through Robey & Anderson.

WHY TEST SEED CORN.

Individual Tests Are Necessary to Attain Maximum Perfection.

The average Missouri farm grows twenty-five acres of corn each year. The approximate stand is 72½ per cent. This means that on every Missouri farm there are 5.87 in every 25 acres that are not faithfully at work. By a germination test of every seed ear, a perfect stand, as far as seed is concerned, can be had. Allowing 12½ per cent decrease for unavoidable losses—wind, weather and pests—a gain of 15 per cent of corn is still possible as a result of testing. This additional 15 per cent of corn would mean approximately 4½ bushels an acre. On the average farm this would total 112 bushels. It costs about five cents an acre to test each ear of seed corn. Individual tests are absolutely necessary to attain maximum production.

This, says J. C. Hackleman of the Extension Service of the University of Missouri College of Agriculture, is the reason for testing seed corn. From the farmer's viewpoint, no work which he can do in February, or even most of March, will be any more profitable than testing his seed corn, yet not more than one in twent Missouri farmers practice it. Obviously, the corn field is an expensive seed tester. Yet these farmers persist in planting untested seed with the result that they must replant or be satisfied with a poor stand, a consequent reduction in yield, and a lower return. It has been remarked that it is some trouble to test seed corn but it is more trouble to replant.. Unfortunately, too many farmers neither test nor replant. A number of seed corn testers, easily made at home, are described in Extension Circular 48.

LLOYD HEIFNER ABOARD SHIP

Is on Former Hamburg-American Liner Doing Transport Service.

Lloyd Heifner, the son of Mr. and Mrs. J. J. Heifner of this city has written the following letter regarding his present work. Lloyd is in the U. S. Naval service and on the U. S. S. America.

Aboard U. S. S. America, Feb. 12.

Dear Folks: Will drop you a few lines. I am aboard the America and she is some ship, in the class with the Levathian and George Washington of the Hamburg-American first class liners taken over. She has taken lots of troops over, but she has been in repair since October. We are scheduled to sail for Brest March 1. I will not go immediately for the ship is not quite ready. She is so large it will take some time for me to get over her and get wise to every part. She has a crew of 600 and it takes every man to keep her running. The soldiers work coming back. We are bringing back 8,000, so we will have plenty of help. I have a good bunk to sleep in and don't have to fool with a hammock. The crew and all officers are going to have a banquet and ball at the Waldorf Astoria tomorrow night. I will be in on that. It will be some affair. I hope to be home in the spring or early summer. This ship was the Amerika (German liner) and it was easy to change its name to America.

DAILY HEALTH TALKS

The Best Way to Treat Constipation

BY S. C. BABCOCK, M. D.

The medical books name many drugs that will move the bowels. The drug store shelves are loaded down with laxatives, purgatives and pills. The trouble with most of them is the after-effects. Constipated people know that pills work all right for a little while, but they soon lose their effect, and a change has to be made to something else. The constant taking of pills results in a form of bowel inactivity that is difficult to cure. The system becomes so accustomed to laxative drugs that the organs just won't work without them, and so the pill habit becomes as bad as constipation itself. Dr. Pierce, of Buffalo, N. Y., seems to me to have the right idea. He says the bowels should first be gently moved with Pierce's Pleasant Pellets, and in the meantime laxative foods only should be eaten. Figs, prunes, olive oil, spinach, bran, vegetables and fruits are fine for constipation. Chew every bite thoroughly, eat little meat, and be as active as possible. Now, doesn't that seem sensible? Pleasant Pellets will start the bowels working right; then it is up to you to keep them right by right eating. Try Pleasant Pellets for sick headache, coated tongue, biliousness, dizziness, torpid liver or to break up a cold. They are just fine!

Dr. Pierce's Anodyne Pile Ointment soothes, cools and heals piles in a most gratifying way. Perhaps there is no other remedy for this torturing trouble that relieves so surely and quickly. Dr. Pierce believes Anodyne Pile Ointment will overcome any case that can be overcome by medical treatment. Try it right now.

Dr. Pierce's Anuric Tablets are intended for people who suffer from kidney disorders—whose backs ache, and whose systems are overrun with uric acid. Nearly everybody has too much uric acid. Anuric Tablets dissolve uric acid quickly, as they are made double strength.

Here's Glorious Relief From Itching Skin Diseases

No More Fiery Pain If You use the Right Treatment

First of all, get it firmly fixed in your mind that the fiery, burning and itching that causes such pain and torture, is not a local skin disease. True, the skin is the scene of the attack, but the skin is fed by the blood and suffers from any impurity in the blood.

This explains why you have been so disappointed in getting any real, lasting relief from the use of ointments, salves, lotions, or other remedies applied to the surface of the skin.

The millions of tiny disease germs which infest the blood keep up a constant attack on the skin, and are not effected in the least by local treatment. They must be routed from the blood.

These germs which saturate the blood cannot be reached except through the blood. When you treat the local irritations with local applications, you must remember that the blood is feeding fresh new germs all the time, to keep the skin irritated, and until the supply of germs is cut off entirely, you cannot expect any real relief.

But S. S. S., the fine old blood remedy, goes directly after the germs that infest the blood, and puts them to rout. This remedy is strictly a blood purifier, and there is no disease germ that can withstand its attacks.

This is why S. S. S. gives such satisfactory results in eczema, tetter, boils, pimples, or any other skin eruptions or disorder. By thoroughly purifying the blood, and cleansing it of every trace of disease germ, S. S. S. removes the cause of all skin eruptions, and restores its normal, healthy condition.

If you want relief that is lasting, because it goes to the seat of the trouble, get a bottle of S. S. S. today, and take it as directed, and satisfactory results will follow. It is sold by all drug stores. Special medical advice about your own case can be had without cost, by writing to Chief Medical Adviser, 102 Swift Laboratory, Atlanta, Ga.

ANY SOLDIER MAY BE CITIZEN

Naturalization of Japanese Has Been Upheld by Bureau.

Honolulu, Feb. 14.—Any alien, regardless of his race or color, who served in the army or navy during the war, is entitled to citizenship, according to instructions received here today by William Ragsdale, chief of the local naturalization bureau, from the bureau of naturalization at Washington.

This decision means that the citizenship of approximately eight hundred Japanese, Chinese, Koreans, Filipinos, and Porto Ricans here fill be uncontested.

Horace Vaughan, United States district judge, already has granted naturalization to 184 Japanese who entered the service. Judge Vaughan held that they were entitled to citizenship under a law enacted by Congress last year. The advices received by Mr. Ragsdale stated the bureau of naturalization has modified its earlier interpretation of this act and now sustains Judge Vaughan's ruling.

A MONUMENT TO MRS. EDDY

Founder of Christian Science Church Honored by Pyramid.

From the New York Evening Post.

A pyramid of granite, weighing approximately seventy-five tons, has been placed on the old Mark Baker farm at Bow, N. H., as a memorial to Mary Baker Eddy, founder of the Christian Science Church. The block was quarried at North Concord, and is said to be the largest ever cut. In the rough it weighed more than one hundred tons.

It will be anchored on a concrete base on the Bow Plateau overlooking the Merrimac Valley, and will measure seven feet nine inches in height, including the base. The base is ten feet square. The pyramid is placed in exact orientation.

Four bronze tables affixed to each face of the pyramid bear suitable inscriptions.

GOES 30 MILES TO GET MORE TANLAC

Throws Walking Canes Away After Tanlac Relieved His Rheumatism, He Says—Has Gained 15 Pounds.

"When I first started on Tanlac I was so crippled up with rheumatism that I had to use two walking sticks in order to get about at all, but after taking five bottles every pain is gone and I have gained fifteen pounds besides," said William Choate, 34 West Riverside avenue, Spokane, Wash.

"Rheumatism was only one of the many troubles that Tanlac relieved me of," he continued. "I had suffered with a bad stomach for twelve years. Gas would form after I had eaten and almost cut off my breath. I had a terrible breathuoA "shaomach in thmb terrible hurting in the pit of my stomach. I had awful pains in the small of my back and constant headaches. Then rheumatism set in and I was laid up flat on my back for several weeks, hardly able to move.

"Well, to make a long story short, Tanlac just simply did wonders for me. Before I finished my second bottle I had thrown away my canes and could walk as well as anyone. All the sourness and gas has left my stomach, I can eat just anything I want tnd enjoy it, and I haven't a touch of the rheumatism left. I had to drive thirty miles to get one bottle of Tanlac, our local druggist being out, but I would do so again under the same circumstances.

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction.—H. M. Lincoln, Pickering, and Carter Pharmacy, Burlington Junction, Mo.

NEWS DISPATCHES FROM THE INTERNATIONAL NEWS SERVICE

MARYVILLE, MISSOURI, WEDNESDAY, FEB. 19, 1919 NO. 220.

MAKE NO MISTAKE

MUST REPORT ON INCOME TAX WHETHER TAXED

MUST FILE A RETURN

Employers Are Required to Report All Employees and the sums They Are Paid Annually.

The Bureau of Internal Revenue is seeking to impress upon the public the necessity for compliance with that section of the Income Tax Law requiring a return of income whether or not the income is taxable. The single man with an exact income of $1,000, or the married man with an exact income of $2,000, who decides that, because his income is not taxable, he need not bother about filing a return, is making a mistake.

A checking system will inform the Bureau of Internal Revenue of delinquents. Under the "information at source" provision of the act, every individual, corporation or partnership which paid in 1918 to another individual, corporation or partnership $1,000 or more, must make a return of such payment to the Commissioner of Internal Revenue. These returns are required of employers, lessees and mortgagers of real estate, and fiduciaries, and must include rents, salaries, premiums, and annuities. Employers are required to make a separate return of each payment of $1,000 or more to employees, and wherever possible, must state whether the recipient is single, married or the head of a family.

Forms for filing income tax returns may be obtained at the offices of collectors of internal revenue. Announcement of their date of distribution will be made by collectors. Taxpayers, whose net income for 1918 was less than $5,000, should ask for Form 1040 A. Those whose income was more than $5,000 should ask for Form 1040.

The man who this year is required to pay an income tax is urged by the Bureau of Internal Revenue to file his return without delay as a means not only of avoiding possible future embarassment to himself, but as an aid to the government in the collection of its war revenue.

"It must be remembered," said Commissioner of Internal Revenue Daniel C. Roper," that the revenue to be derived under the current act is to be used to defray the cost of a war that has brought victory to the United States and its allies. The estimated total is $6,000,000,000. Compare this with the indemnity that would have been demanded by Germany had victory been on the other side. The man who pays an income tax this year may do so with thankful heart, secure in the knowledge that he is bearing his just share of a common burden, which no loyal American would evade."

The "blesses" are the wounded French.

NORMAL-TARKIO GAME THURS

Bearcats in Shape for Hard Game—M. H. S. Teams Play Double Header With Hopkins Friday Night.

The Normal Bearcats will mix with Tarkio five on the local court night, it being their second season. Coach Sims' men are in shape for a hard game and despite the fact that the Tarks are coming with "blood in their eye" intent on evening up the season's score, hope to connect with the long end of the score.

The two Maryville high school teams—boys and girls—will play a double header with the two teams from Hopkins Friday night on the Normal court. The double event is being looked forward to by the M. H. S. players, for Hopkins has proven a tough proposition, both teams having been defeated on the Hopkins court.

INCOME TAX FORMS ARRIVE

Individuals with Incomes of $5,000 or less released today—Other Forms Available Soon.

Individuals of Maryville with income of $5,000 or less received today their income return tax form from the revenue office at Kansas City. The forms were released this week without awaiting the signature of the revenue bill by President Wilson. The form for individual incomes of more than $5,000, and other tax returns forms will be available in two weeks.

The individual form for incomes of $5,000 or less is a printed sheet divided into three parts, one constituting a "work sheet" on which a taxpayer may figure his income according to the guide provided, another containing detailed instructions, and the third being the actual return form. Married persons or heads of families who made $2,000 or more, and single persons who made $1,000 or more in 1918, must make out returns before March 15.

Accompanying the individual return form is a schedule for use of farmers in calculating net income for 1918. This will assist a farmer in determining value of crops, livestock products, and other materials, sold and on hand.

Charging indignities and that she had been forced to move seventeen times during their married life of less than ten years, Mrs. Priscilla Auffart filed papers today in a suit for divorce from her husband, Joseph H. Auffart. Mrs. Auffart in her petition charges her husband with failure to provide the necessities of life, with habitually associating with other women and that he stays away from home weeks at a time refusing to tell where he has been or for what purpose. Mrs. Auffart asks the custody of their three minor children Otis, Edwin and Marion. The Auffarts were married in November, 1909.

DRIVE GOING GOOD

MARYVILLE WILL RAISE HER QUOTA FOR ARMENIA RELIEF

WAR HERO TOSPEAK HERE

Sergeant Kearney, Australian Officer Who Served in Turkish Campaign Will Aid in Drive.

While complete reports are not yet available and with some districts yet to report, the drive for funds for the Armenian and Syrian relief fund is progressing favorably according to County Chairman C. E. Wells. Mr. Wells said today that Maryville would have its quota before the end of the week. Solicitors, he said, were still at work and were finishing a canvass of the districts that had not been visited earlier. No definite report has been received from any of the towns in the county except that they were at work and expected to have their quotas raised by the end of the week.

To aid in the campaign in the outside districts Sergeant Kearney, an Australian officer who has been wounded during three years service will arrive tomorrow and will speak in several of the adjoining towns at meetings that will be arranged. Sergeant Kearney was in the battles in the drive towards Constantinople, having participated in the Turkish campaign and he will have another story of the war to tell. He will come from the headquarters of the state committee. Sergeant Kearney lost an eye in one of the battles and was severely wounded in other engagements.

An effort will be made by Chairman Wells to arrange for Sergeant Kearney to speak in Maryville Saturday afternoon, giving some of his experiences in the Turkish campaign. Further announcement of the meeting will be made tomorrow or Friday.

TALK TO THE STARS

MARCONI BELIEVES OLD, OLD DREAM WILL COME TRUE

WILL BE MATHEMATICS

Inventor Says He Has Often Pondered Over Strange Signals That Appear to Come From Without Space.

London.—(By Mail).—The old, old dream of the wig-wagging with Mars may yet come true.

Signor Marconi thinks electrical scientists of the future will be able to communicate, by means of wireless, with the planets—mathematics being the language for inter-planetary conversation. Ether waves, the conductors of the wireless ray, are universal, he believes.

"I have often pondered over the strange signals that seem to come from the realms of space beyond this world," Signor Marconi stated in an interview. "Possibly the people of Mars have had, or are having, the same troubles as ourselves—perhaps they, too, have their Kaiser, their Huns, and their Bolsheviks to endure, and now from a distance of millions of miles are trying to give us their latest communique, which we shall not receive for many generations, if at all.

"A leading scientific official being interrogated on the subject said: "We are progressing rapidly in wireless telegraphy, but how soon we shall be able to talk to the stars remains to the savants of the future.

"The distance of some planets is so great that it takes light, which travels at the rate of 186,000 miles a second, more than 50,000 years to travel from them to the earth—the nearest star is more than nineteen million miles away.

"It is interesting to note," he said, "that a scientist in America, experimenting in long-distance wireless, sent off a message and received it back one-seventh of a second later, it having travelled right round the earth —a distance of 25,000 miles."

This would apparently mean that supposing a message were sent off today—not a long one like "How's your father?" but a simple one like Signor Marconi suggests: "Two plus two equals four"—the scientists of A. D. 52,000 will be kept busy waiting for a reply. And after all that, the people of Venus or Jupiter might reply rudely "Well, what of it?" or they might Marconi back if their mathematics don't quite coincide with ours: "No, we make it five."

The official continued: "The spark of the wireless apparatus diminishes slightly the farther it goes, and is consequently a little more difficult to detect, but, however, there may be some hope of communicating with the planets, for the detectors in use at present are a thousand times stronger than they were four years ago. And, besides," he continued, "the strength of the wireless spark is practically illimitable."

"Mars is a small planet—little more than half the size of the earth—but the atmosphere surrounding it is, as far as we can ascertain, very similar to our own, so it appears that Mars will be probably more responsive to our messages than any other."

The scientific experimentalists and officials of the Marconi company are religiously firm in support of Signor Marconi's engaging thesis, though Marconi himself complains that messages he sent ten years ago have not yet reached some of the nearest stars.

THE BIG QUESTION

HOW STRONG WILL GERMANY BE AFTER PEACE IS DECLARED?

TO BE THROUGH BY JUNE?

Peace Delegates Believe Delegates From Enemy Nations Can Be Summoned to Congress by April or May.

Paris, Feb. 19.—Opinion is crystalizing among the peace envoys that it might be possible to summon German, Austro-Hungarian, Bulgarian and Turkish delegates into a full congress by the middle of April or the first of May and that peace can finally be concluded by the middle of June. When President Wilson returns to Paris the middle of March he will find the labor of the conferencee considerably advanced and a cut aand dried program ready upon which he will be able to work. The biggest question engaging attention at this moment is the military and naval strentgth that will be left to Germany after peace is declared.

CLEMENCEAU SHOT

NOTED FRENCH STATESMAN IS WOUNDED BY AN ASSASSIN

ASSAILANT IS A RUSSIAN

Police Reported Shortly After Attack That an Arrest Had Been Made—Premier Will Recover.

Paris, Feb. 19.—An attempt was made today upon the life of Premier Georges Clemenceau, world famous statesman and one of the dominating figures in the peace conference. Five revolver shots were fired as the Premier was leaving his official residence shortly before nine o'clock, Mr. Clemenceau being wounded. It is stated that he will recover. The police announced shortly after the attack that an assassin had been arrested. The first reports to the police was that the Premier's assailant was a Russian. One shot struck him in the shoulder, another penetrating the hood of his automobile. Several persons ran to the assistance of the aged statesman, but he was able to walk into his residence.

Spectators declared that five shots were fired by the assassin, but an official statement issued this afternoon said there had been seven in all. Some of the bullets passed through the clothing of the two men upon the driver's seat, but they were not wounded. The official statement said that Premier Clemencau was not seriously wounded.

Washington, Feb. 19.—One of the two men who today attempted to assassinate Premier Georges Clemenceau was seized by a mob and almost killed before he was rescued by grendarmes, according to a dispatch to the state department from the American embassy at Paris.

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 30c and 60c per box. All druggists.

Our rate of taxation for the past year was 95 cents on the $100 valuation, forty cents on state part, forty cents for all purposes in the county and fifteen cents for exisiting indebtedness As the indebtedness is now liquidated, our rate of taxation the ensuing year can not exceed eighty cents on the one hundred dollars valuation, forty cents for state and forty cents for county. We have no floating indebtedness.

Probably the largest audience that ever assembled in Union Hall was there last Monday evening to her the Hon. Lafe Dawson deliver an address on the subject of Temperance. The large hall was literally packed with an audience composed of yound and old, many of whom had to remain standing while hundreds were turned away, unable to gain admittance at the door. After the address the audience was favored with a song by the occomplished Miss Anna Cushwa. Mr. R. W. Hammond, one of our talented and eloquent attorneys, who is an authority on Temperance matters, addressed them.

Joseph Reese closed his school in the Elm Grove district last Tuesday. Joe, we learn, gave good satisfaction as a teacher.

Collector Keeler and Deputy R. C. Montgomery spen Friday in Hopkins collecting taxes. They got nearly $1,400, which was surely a good day's work.

The town board ordered that all the prisoners confined in the calaboose be released when they have served out two thirds of their time provided they leave the state.

Union Hall was crowded last Friday evening with an appreciative audience to witness the exercises of the literary entertainment of the teachers and pupils of the Maryville public school. Our columns are too crowded this week to admit of an extended notice. The larger persons who took part will, therefore, excuses us if we make more particular mention of the little boys and girls who did so well—all of them. There were Dolly Michau, Dale Flowers, May Boyer, George Lieber, Charlie Davis, Villie Northcutt, Eva Charles, Lena Briggs, Della Lutes, Edith Curfman and Lucy Ford who performed to perfection. Alice Ford's declamation, Hezekiah Bedott, brought down the house. Without Miss Broyles the entertainments would fall far short of what they are; she could give a good entertainment herself. Everyone praised her rendering of "The Beautiful Form of My Dream," and, "The Angels of Buena Vista." Prof. Charles essay on "The Influence of Language," was admirably wrritten, but read in too low a tone. The expression of many was, "I wish it had been louder so that I could have heard it distinctly." The tableau, "Washington's Vision," and "Playing Hookey," were well performed, and Chapin's band furnished elegant music of course. There were many regrets expressed that Mr. Anthony was not present to read an essay on "Books and Reading" as all know Mr. Anthony to be a thorough scholar and a gentleman who always talks and writes the best of sense.

The following is the report of Miss Amanda Harbison, teacher of the Long Branch school for the month ending ending January, 1879. Number of pupils in attendance, females sixteen, males, twenty-five; total, forty-one; average attendance, twenty-eight; number of visitors fifteen. The following came every day: Dora Harbison, Carrie Swinford, Frankie Lemaster, Dora Harbison came every day and was perfect every day.

FARMING IN U. S. VS. ENGLAND

American Farmer Is a Plutocrat When Compared to English Cousin Who Occupy Unsanitary Homes.

London, Jan. 24.—(By Mail).—Compared with his English cousin, the American farmer, is a plutocrat. Aside from the fact the American farmer has a wider diversity of crops, better soil, larger fields more machinery to save human sweat and other numerout advantages, the American farmer, basically, socially and also agriculturally, is generations ahead of his English cousin.

Fundamentally, there's a difference. Farm labor, or any other labor that gets its hands dirty, is not respected; that is, there is no, bond of sympathy between that kind of labor and the two upper classes. The farmer himsesif, presuming he owns the land, is in a far different position. He may be "an English gentleman," and member of Class No. 1, or a titled person. Actual farm labor, however, is regarded by classes one and two in this country as degrading. There is no respect for farm labor, as such, any more than there is for the work of a draft horse. Serfdom has passed, but the serf-idea has not been entirely eradicated.

There are farm laborers in plenty, just as there are underpaid mill operatives in the Lancashire cotton industry. But there is no such thing as a farm laborer who lives with the family as in America, and is on the same social footing in this country. Neither does he have, as in America, if married and with family of his own, a cottage, a plot of ground, a few chickens and perhaps some stock of his own.

But more often the farm workers live in villages which are picturesque, often enough, but unsanitary. With all such houses made of brick, naturally there is not much tearing down or improving done. In some sections, thatched cottages, with the ancient fireplaces, still may be found.

Rural housing conditions have moved R. B. Walker, secretary of the National Agricultural Laborers' and Rural Workers' Union, to demand improvements. To visualize the condition, an American must think of a rural English cottage as occupying as much ground and possessing fewer conveniences than the house of a day-laborer in the mill district of Pittsburgh. There are exceptions, of course, where the laborer may own a few acres himself.

"You can find appalling object lessons in bad housing in picturesque villages in Herts, Essex, Dorset, Oxfordshire, Northamptonshire and Wales," Walker said. "In fact, you can find them everywhere. The ivy-covered laborers' cottage artists and landowners like to see may be the most unwholesome spot in the neighborhood for its real purpose—the housing of a hard-working man and his wife and children.

"It is well nigh impossible for parents and families to live descent, comfortable lives, such as they want to live, in a four-room cottage, with two rooms upstairs and two downstairs, for a husband and wife and seven children. Yet that is the typical country laborer's cottage such as I know by the hundred and many a family of six or eight children has been compelled to live as best it can in such cramped surroundings."

"The sanitary arrangements at some of the cottages are appalling; in fact, one wonders how htey could have been tolerated even 100 years ago. A cottage may have only a ladder with a rope to guide you to the upper rooms; you may have to pass through one bedroom to get to another; the doors may be so small only children can pass through without stooping."

Healthy Mothers
Healthy Babies
Every true mother realizes the fact that her baby's health depends upon her own, that the very vitality of her child is influenced by her own physical condition. How important it is, therefore, to guard against any derangement of the female organs, which induce general weakness, nervousness, constant fatigue and utter inability to properly care for her child. Please remember, that Lydia E. Pinkham's Vegetable Compound has brought health and strength to thousands of such mothers.
Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia, I had gained in strength and was able to go around and do all my housework. My baby when 7 months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. Pearl Moynihan, Mitchell, Ind.
Good health during and after maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

A Man.

What shall we say of them, the dead who died
Upon the fields of France to crush the foe?
How shall we show our pity and our pride?
How shall we crown their glory and their woe?
Not by the means of futile words of praise—
The nameless dead do never ask this gift—
Not by the splendid monuments we raise,
Nor by the half mast flags we sadly lift;
But let this be their glory, be their due,
Let but their single thought speak for them here:
In that rich moment when they gave, each knew
E'en as he lost the things he'd held most dear,
That, matter not what be Life's unseen plan,
He'd played his part, and proved himself a man.

"DOUG" FAIRBANKS AT EMPIRE

Appears Tomorrow Night in "Mr. Fix-It," the Best Comedy of All.

Douglas Fairbanks with three leading women will appear at the Empire tomorrow night in a photo-comedy, "Mr. Fix-it" which leads the procession of plays of the popular Fairbanks.

The story is Mr. Fixit is a smiling young man, bubbling over with good humor and geniality, whose pet theory is that happiness is a mighty good habit which everybody can acquire if they desire it. He promulgates his theory in a home of wealth, whose inmates are at sixes and sevens over everything in life, and he "fixes" things in a novel and surprising manner, although that process almost gets him into serious trouble. The story has numerous thrills and is filled with several amazing surpirses of the typical Fairbanks order. These include a thrilling battle with gunmen in the slums, an escape by clothsline and in one scene Mr. Fairbanks swings across the street at a dizzy height on an election banner.

O. P. Fisher Buys Farm.

The A. Thompson farm of 230 acres nine miles northwest of Maryville, was sold today to O. P. Fisher. The sale price was $23,000. Mr. Fisher has recently sold his farm east of the city and will move to his new home March 1. The deal was made through Robey & Anderson.

WHY TEST SEED CORN.

Individual Tests Are Necessary to Attain Maximum Perfection.

The average Missouri farm grows twenty-five acres of corn each year. The approximate stand is 72½ per cent. This means that on every Missouri farm there are 5.87 in every 25 acres that are not faithfully at work. By a germination test of every seed ear, a perfect stand, as far as seed is concerned, can be had. Allowing 12½ per cent decrease for unavoidable losses—wind, weather and pests—a gain of 15 per cent of corn is still possible as a result of testing. This additional 15 per cent of corn would mean approximately 4½ bushels an acre. On the average farm this would total 112 bushels. It costs about five cents an acre to test each ear of seed corn. Individual tests are absolutely necessary to attain maximum production.

This, says J. C. Hackleman of the Extension Service of the University of Missouri College of Agriculture, is the reason for testing seed corn. From the farmer's viewpoint, no work which he can do in February, or even most of March, will be any more profitable than testing his seed corn, yet not more than one in twent Missouri farmers practice it. Obviously, the corn field is an expensive seed tester. Yet these farmers persist in planting untested seed with the result that they must replant or be satisfied with a poor stand, a consequent reduction in yield, and a lower return. It has been remarked that it is some trouble to test seed corn but it is more trouble to replant. Unfortunately, too many farmers neither test nor replant. A number of seed corn testers, easily made at home, are described in Extension Circular 48.

LLOYD HEIFNER ABOARD SHIP

Is on Former Hamburg-American Liner Doing Transport Service.

Lloyd Heifner, the son of Mr. and Mrs. J. J. Heifner of this city has written the following letter regarding his present work. Lloyd is in the U. S. Naval service and on the U. S. S. America.

Aboard U. S. S. America, Feb. 12.

Dear Folks: Will drop you a few lines. I am aboard the America and she is some ship, in the class with the Levathian and George Washington of the Hamburg-American first class liners taken over. She has taken lots of troops over, but she has been in repair since October. We are scheduled to sail for Brest March 1. I will not go immediately for the ship is not quite ready. She is so large it will take some time for me to get over her and get wise to every part. She has a crew of 600 and it takes every man to keep her running. The soldiers work coming back. We are bringing back 8,000, so we will have plenty of help. I have a good bunk to sleep in and don't have to fool with a hammock. The crew and all officers are going to have a banquet and ball at the Waldorf Astoria tomorrow night. I will be in on that. It will be some affair. I hope to be home in the spring or early summer. This ship was the Amerika (German liner) and it was easy to change its name to America.

DAILY HEALTH TALKS

The Best Way to Treat Constipation

BY S. C. BABCOCK, M. D.

The medical books name many drugs that will move the bowels. The drug store shelves are loaded down with laxatives, purgatives and pills. The trouble with most of them is the after-effects. Constipated people know that pills work all right for a little while, but they soon lose their effect, and a change has to be made to something else. The constant taking of pills results in a form of bowel inactivity that is difficult to cure. The system becomes so accustomed to laxative drugs that the organs just won't work without them, and so the pill habit becomes as bad as constipation itself. Dr. Pierce, of Buffalo, N. Y., seems to me to have the right idea. He says the bowels should first be gently moved with Pierce's Pleasant Pellets, and in the meantime laxative foods only should be eaten. Figs, prunes, olive oil, spinach, bran, vegetables and fruits are fine for constipation. Chew every bite thoroughly, eat little meat, and be as active as possible. Now, doesn't that seem sensible? Pleasant Pellets will start the bowels working right; then it is up to you to keep them right by right eating. Try Pleasant Pellets for sick headache, coated tongue, biliousness, dizziness, torpid liver or to break up a cold. They are just fine!

Dr. Pierce's Anodyne Pile Ointment soothes, cools and heals piles in a most gratifying way. Perhaps there is no other remedy for this torturing trouble that relieves so surely and quickly. Dr. Pierce believes Anodyne Pile Ointment will overcome any case that can be overcome by medical treatment. Try it right now.

Dr. Pierce's Anuric Tablets are intended for people who suffer from kidney disorders—whose backs ache, and whose systems are overrun with uric acid. Nearly everybody has too much uric acid. Anuric Tablets dissolve uric acid quickly, as they are made double strength.

Here's Glorious Relief From Itching Skin Diseases

No More Fiery Pain If You use the Right Treatment

First of all, get it firmly fixed in your mind that the fiery, burning and itching that causes such pain and torture, is not a local skin disease. True, the skin is the scene of the attack, but the skin is fed by the blood and suffers from any impurity in the blood.

This explains why you have been so disappointed in getting any real, lasting relief from the use of ointments, salves, lotions, or other remedies applied to the surface of the skin.

The millions of tiny disease germs which infest the blood keep up a constant attack on the skin, and are not effected in the least by local treatment. They must be routed from the blood.

These germs which saturate the blood cannot be reached except through the blood. When you treat the local irritations with local applications, you must remember that the blood is feeding fresh new germs all the time, to keep the skin irritated, and until the supply of germs is cut off entirely, you cannot expect any real relief.

But S. S. S., the fine old blood remedy, goes directly after the germs that infest the blood, and puts them to rout. This remedy is strictly a blood purifier, and there is no disease germ that can withstand its attacks.

This is why S. S. S. gives such satisfactory results in eczema, tetter, boils, pimples, or any other skin eruptions or disorder. By thoroughly purifying the blood, and cleansing it of every trace of disease germ, S. S. S. removes the cause of all skin eruptions, and restores its normal, healthy condition.

If you want relief that is lasting, because it goes to the seat of the trouble, get a bottle of S. S. S. today, and take it as directed, and satisfactory results will follow. It is sold by all drug stores. Special medical advice about your own case can be had without cost, by writing to Chief Medical Adviser, 102 Swift Laboratory, Atlanta, Ga.

Willard STORAGE BATTERY SERVICE STATION

Would You Run on a Flat Tire?

Suppose your front tire went flat ten miles from home.

You would not bang and bump along after you knew that every turn of the wheel was tearing the life out of the casing.

Why not be as reasonable about your battery?

The penalty for mistreating a battery is just as sure as for abusing a tire. The care is just as easy.

Drive into our Service Station and let us tell you just how easy it is.

We test, repair and recharge storage Batteries, and always carry a full supply of battery parts, new batteries and rental batteries.

Making a Will When Sick

May people are forced to make a will while on a sick bed.

At best, making a will is not a very hilarious act; but wren one has been negligent and procrastinating in this very important matter, and he tries to make his will whille ill in mind and body, the entire affair becomes a farce.

Making a will is a necessary and wise thing to do, and cannot be done any too soon.

The Farmers Trust Co. will, in strict confidence, help you make your will and act as your executor.

ANY SOLDIER MAY BE CITIZEN

Naturalization of Japanese Has Been Upheld by Bureau.

Honolulu, Feb. 14.—Any alien, regardless of his race or color, who served in the army or navy during the war, is entitled to citizenship, according to instructions received here today by William Ragsdale, chief of the local naturalization bureau, from the bureau of naturalization at Washington.

This decision means that the citizenship of approximately eight hundred Japanese, Chinese, Koreans, Filipinos, and Porto Ricans here fill be uncontested.

Horace Vaughan, United States district judge, already has granted naturalization to 184 Japanese who entered the service. Judge Vaughan held that they were entitled to citizenship under a law enacted by Congress last year. The advices received by Mr. Ragsdale stated the bureau of naturalization has modified its earlier interpretation of this act and now sustains Judge Vaughan's ruling.

A MONUMENT TO MRS. EDDY

Founder of Christian Science Church Honored by Pyramid.

From the New York Evening Post.

A pyramid of granite, weighing approximately seventy-five tons, has been placed on the old Mark Baker farm at Bow, N. H., as a memorial to Mary Baker Eddy, founder of the Christian Science Church. The block was quarried at North Concord, and is said to be the largest ever cut. In the rough it weighed more than one hundred tons.

It will be anchored on a concrete base on the Bow Plateau overlooking the Merrimac Valley, and will measure seven feet nine inches in height, including the base. The base is ten feet square. The pyramid is placed in exact orientation.

Four bronze tables affixed to each face of the pyramid bear suitable inscriptions.

GOES 30 MILES TO GET MORE TANLAC

Throws Walking Canes Away After Tanlac Relieved His Rheumatism, He Says—Has Gained 15 Pounds.

"When I first started on Tanlac I was so crippled up with rheumatism that I had to use two walking sticks in order to get about at all, but after taking five bottles every pain is gone and I have gained fifteen pounds besides," said William Choate, 34 West Riverside avenue, Spokane, Wash.

"Rheumatism was only one of the many troubles that Tanlac relieved me of," he continued. "I had suffered with a bad stomach for twelve years. Gas would form after I had eaten and almost cut off my breath. I had a terrible breathuoA "shaomach in thmb terrible hurting in the pit of my stomach. I had awful pains in the small of my back and constant headaches. Then rheumatism set in and I was laid up flat on my back for several weeks, hardly able to move.

"Well, to make a long story short, Tanlac just simply did wonders for me. Before I finished my second bottle I had thrown away my canes and could walk as well as anyone. All the sourness and gas has left my stomach, I can eat just anything I want tnd enjoy it, and I haven't a touch of the rheumatism left. I had to drive thirty miles to get one bottle of Tanlac, our local druggist being out, but I would do so again under the same circumstances.

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction.—H. M. Lincoln, Pickering, and Carter Pharmacy, Burlington Junction, Mo.
